vaults of heaven

whenever taking my photo's, I see lines and shapes flowing into distances.
the photo's hereafter are previous to those in 'twisted perspectives': after
seeing the vaults, I -so to say- stepped 'outside'.

in 2014/'15 the majority of the photos was taken at Abbaye de Hambye,
in Normandy, as well as in Amiens and Gendt - p. 29 in Prague came in 2016
